

P330RVG

Volvo B10M Plaxton Premiere C53F
Vo B10M-62 YV31MA515VA047365Pn 9712VUM7206
New to Eastern Counties as 30 06/1997

P330RVG was new in June 1996 and was a single Volvo B10M MK4 Plaxton Premiere ordered to bolster the frequency of the excel X94 service from Norwich to Peterborough.

The service soon expanded in 1998 continuing to the coastal town of Great Yarmouth and then in 1999 Lowestoft.

Volvo B10M's built up the mainstream network in the late 2000's and helped expand the coaching 'excel' network in 2002 with the arrival of Volvo B12M Plaxton Paragons which displaced the Premiere's off onto other corridors such as the X95 services from Watton to Lowestoft etc.

During the late 00's the excel network twiddled down to the point that the older work horses were withdrawn. Since then P330RVG passed to Rambler and lately LynxBus where we acquired it from in 2019.

P330RVG joined us in July 2019 and has since been placed in storage.
