New to New World Bus HV 5087 05/1998

HV5087 was new in May 1998 and delivered to First New World Bus in Hong Kong.

By 2002 the batch was displaced and reimported into First Bus which a batch marked down for Eastern Counties at Norwich and a handful at Great Yarmouth.

S664SNG became its registration Fleet No. 705 and worked the Park and Ride service 507 in Norwich until the late 00's where it there was transferred to Plymouth in exchange with some similar example Dennis Darts.

During its time at Plymouth it was branded s 'ugo' bus which was a local branding used until First Group sold the operations to Stagecoach. S664SNG then was withdrawn and bought by a dealer in Surrey in 2015.

We then acquired the vehicle in early 2021.

SS64SNG joined us in March 2022, we currently have no plans to start this project as it is placed in dry storage until time & funds permit the restoration to commence.
